AMPS MESSENGER

"WHERE CHILDREN ARE IMPORTANT"

PAINTING: SARGAM LONGIA, VIII A

Dear All,
Greetings!

Our summer vacations are here, providing a much-needed break from the school routine. They give us more time to relax, play, explore and learn new skills. During summer break, AMPSians catch up on schoolwork, visit new places, spend quality time with family and friends, learn new hobbies and languages, as well as develop an appreciation for diverse cultures and perspectives. Some of our students have also joined the fun activities at Camp Synergy in our Junior Wing.

Apart from the above, we encourage children to use their logical and reasoning capabilities to give rise to their creative juices and thinking out of the box. As Albert Einstein said, "Imagination is more important than knowledge". Knowledge is about what we learn and gain an understanding of, whereas imagination leads to innovation and moves individuals and cultures forward.

We at AMPS believe that a child's imagination is without limit, and by igniting it, new ideas are generated and progress becomes possible.

As the popular saying goes, "Some of your best ideas come when you're on vacation" (think Isaac Newton under the apple tree). So let your child use this summertime creatively while at the same time ensuring they complete their holiday homework. Do not forget to relax and have fun!

Happy Summer Vacation!
Team AMPS
