

Delhi Public School, Fulbari

(Affiliated to CBSE, Delhi)

Under the aegis of THE DELHI PUBLIC SCHOOL SOCIETY, Registered under Societies Registration Act 1860)

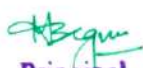

REASONS FOR USING BOOKS OTHER THAN NCERT

- i) Since the strength of each class is huge, it is difficult for us to get the books in time through book seller/vendor.
- ii) Each topic is explained nicely in NCERT books but they are very precise, whereas other books contain worksheets and examples in an elaborated manner, which helps our students to have better understanding of the topic as well as contents.
- iii) Visual representation plays an important role in understanding the concept and the books that we use is more colourful that easily draws attention of the students.
- iv) The books we use are all by prominent text book publishers in India focusing on activity oriented and syllabus based books. While we use these books, we get additional support from the company in terms of different subject experts and Educationist who help our students and teachers to understand the technique of learning in a stress free and joyful ambience.
- (v) Teachers orientation programme and subject enrichment programme for teachers are being organised by the book publishers which equips our teachers to motivate students towards learning. They also give digital support for each and every topic which is very helpful for the students.
