MESSAGE FROM

President Bidya Bharati Foundation (Siliguri)

The journey of Bidya Bharati Foundation, from its inception, has been a journey of paradigm shifts. Under this umbrella organisation, DPS Siliguri and Fulbari have emerged as premier schools of the region, by setting new milestones every year. This year marks a momentous phase for DPS Siliguri, as the school successfully completes 20 glorious years of excellence in education. This year too, both DPS Siliguri and Fulbari basked in the glory of an exceptional academic performance of their students in the Board exams. In the midst of an enthralling environment of lush greenery and lofty hills, our children continue to grow, develop and prosper.

In an ever changing environment, marked by its cut-throat tendencies, it becomes necessary to provide students with diverse set of choices of study and activities to engage in and discover himself. In this regard, our ideology has always been to move from teaching to educating, giving our children a wholesome and wide experience within the school structure, closely working with parents to further enrich the process of education.

Both our schools, thus, have been successful in their role in giving both meaning and direction to the growth of their children to nurture and develop responsible global citizens. We have consistently extended adequate exposure to academics, co-curricular enterprises, workshops & similar learning experiences to our children, showcasing the spirit of all-round development. I am confident that with committed educators and eager learners, both DPS Siliguri and Fulbari hold a future of much better prospects and promising opportunities.

On this special occasion of the publication of the annual school prospectus, I wish the team of dedicated staff of DPS Siliguri and Fulbari the very best in all their endeavours.

MESSAGE FROM

Pro VC Director

It's an immense joy to witness Delhi Public School Siliguri and Delhi Public School Fulbari grow from strength to strength and I acknowledge the attributes of my teaching faculty, their teamwork, industrious spirit, vision, willingness to render 'Service Before Self' and desire to keep the lamp of learning lit.

We have proudly contributed two decades to the field of education and seen the school emerge and earn the reputation synonymous with quality school, immersive learning, hub of achievers, in fields as diverse as fine arts, classical music, western dance, computer, AI, science, literature, language, cricket, football, hockey, taekwondo and above all as humanitarians. The wonderful alumni speak volumes about what the school is to them. A teacher indeed affects eternity. At DPS Fulbari, we have already succeeded in establishing the same culture and tradition of DPS Siliguri and the new school too is successfully imparting education in its true meaning. The school has been conferred the first position in the Day Cum Boarding School category in West Bengal by National Human Development Magazine, 'Education World'.

I endeavor to see Siliguri as the hub of education where DPS Siliguri and DPS Fulbari will continue to be the ultimate destination for parents who wish to see their children shaping into capable leaders of tomorrow. We strike a balance between western and orient, give the children the wings to fly, and teach them never to forget or neglect their roots.

The culture of learning at these institutions is futuristic yet traditional and the institutions have emerged in the map of the nation as 'an abode of learning' where the young minds are harnessed to be better versions of themselves, fulfilled individuals, sincere citizens, sensitive leaders in every field and above all compassionate humans.

BENEFITS OF EDUCATIONAL TRIPS

The world is a book and those who do not travel read only a page. -St Augustine

Educational trips bring academic growth and we believe passionately that school trips are a vital part of what makes school life so unique. Educational trips allow students to mobilize their learning while socializing with peers and strangers in a completely different way than many of them have before. Kinaesthetic learners, in particular, benefit immensely from the chance to take a hands-on approach to life.

So, whether studying marine biodiversity in person or learning about different approaches to sustainability by seeing them implemented in a city, knowledge in all subjects is enhanced when real-life experience is part of the program.

Trips abroad and even travel within their home country can help students appreciate a wonderful mixture of cultures, cuisines, and traditions that constitute the world around them. Travel is a fantastic opportunity for students to experience cultures outside their own and appreciate diversity leading to deep understanding, empathy, and international-mindedness.

LEARNING BEYOND THE CLASSROOM

BEYOND SCHOOL

Acquisition of knowledge and evolving life skills can be done both inside and outside the four walls of the school.

DPS Fulbari provides challenging, exciting and diversified experiences to its students to acquire the necessary expertise. Extending learning beyond the classroom shapes the character and infuses honor, integrity and self-reliance among children. Field trips to the fire station, old-age home along with industrial visits improve their social, emotional and intelligence quotient as well.

Abiding by the modern educational policy, edutainment has also been adopted as a way of instruction for the young minds. Hence, creating a platform for the all round development of the mind body and soul of champions of our future.
