Thought of the Day

"You always pass failure on the way

- Mickey Rooney

Word of the Day

chernozem / [chur-nuh-zem, chair-] / noun

: a soil common in cool or temperate semiarid climates, very black and rich in humus and carbonates.

eg. "This is the famous chernozem that nourishes this lush and grassy country and enables it to support many species of wildlife flying, grazing, and crawling in every direction."

OVER POLLUTION

Designed by Ankur Raj.

[SSL]

Pollution is the introduction of harmful materials into the environment. These harmful materials are called pollutants. Pollution can take the form of chemical substances or energy such as noise, heat, or light. Pollutants, the components of pollution, can be either foreign substances or natural occurring contaminants. Pollution is often classed as point source or nonpoint source pollution. In 2015, pollution killed 9 million people worldwide.
