Sehrish Haneef - "Technology without hatred can be a blessing. Technology with hatred is always a disaster."
We live in an age of information overload. With the advent of new technologies on a continual basis, giving people access to more information at a faster rate than ever, society is reaching a point where there is just too much stuff to absorb
Nowadays the world around us is full of technology. We travel through automobiles, air planes. Homes are being decorated with air-conditions, room coolers, and heaters. Movies watched by the public are full of technology adventures

Among all these, Information Technology is impacting our lives vastly.It is touching our lives; both in a positive and negative way. People communicate with the world through mobile phones, e-mails and different chatting app
Despite all welfares, IT is cause of different types of problems in public lives, including, lack of time, different kinds of diseases etc.But, technology is immensely improving our lives, and we all can reflect this
The disadvantages includes Elimination of Jobs: Your work is single click away. Paper work can be done easily with these technologies, and due to this companies are looking for new software that can decrease their workload. And they could file as .s...le as limited people as they can for jobs.

Health issues: Many health issues have been identified due to over use of technology including, vision problems, hearing problems, obesity, muscular problems, stress and insomnia etc.
Social Isolation: It has also been noticed that due to excessive time spent on social sites, one using these them, becomes unaware of the relationships around him like, even
