

Educational Field Trip to Kapurthala Rail Coach Factory

St. Xavier's students of class 10th were taken on an educational trip to Kapurthala Rail Coach Factory on 29th of April 2023. The students boarded the bus at 5 a.m and reached their destination by 10 a.m.

This factory was established in 1985. It is the largest and most modern coach manufacturing unit of Indian Railways. The factory is located at a distance of 7 kms from the historical city of Kapurthala.

The students have experienced the manufacturing of railway coaches and engine parts with their own eyes and had a lifetime experience. They observed how rail coaches are constructed, how various components are put together and how the work proceeds further. The visit was aimed at letting students get an insight of all the technical concepts such as production, economies of scale, labour management and industrial regulations. Students exchanged views with technical experts of the RCF and got the necessary exposure. They felt excited and much elated being there and getting an opportunity to learn new things.

Such educational trips not only enhance the knowledge of the students but also give them an opportunity to observe many things that are not available at school. It was indeed a great experience for the students as having said such experiences are a memory and learning for lifetime. The day was full of curiosity, exciting experiences and fun. Thereafter the students were taken to Haveli for lunch and reached Bathinda at 9 p.m.
